SOFTWARE DEVELOPER

Detail-oriented and analytical IT postgraduate student currently pursuing an MCA at Galgotias University. Possesses strong capabilities in foundational programming frameworks, data structures, and modern database management systems. Driven to build high-performance software applications and scale functional architectures.

TECHNICAL SKILLS

C Programming	Python	JavaScript
Java Programming	DBMS & SQL	Machine Learning Basics

PROJECTS

Movie Rating Prediction Model (Python / ML)

Academic Period

- Engineered an end-to-end predictive model using Python data workflows to analyze metrics and accurately forecast cinematic ratings.
- Implemented feature scaling, structural testing datasets, and statistical regression modeling using Pandas, NumPy, and Scikit-Learn libraries.

E-Commerce Shopping Application (JavaScript / Web)

Academic Period

- Designed and executed a dynamic, highly responsive frontend structure implementing interactive shopping cart features and data filtering.
- Optimized application execution paths and client-side rendering flows seamlessly without heavy external runtime dependencies.

EDUCATION

Galgotias University

Pursuing

Master of Computer Applications (MCA)

Graduated Institution

Completed

Bachelor of Computer Applications (BCA) — 8.0 CGPA

Bihar School Examination Board (BSEB)

Completed

Senior Secondary School (12th Grade) & High School (10th Grade)
